

# The future of funding for early learning and care and school-age childcare

You are invited to participate in a **focused discussion for parents** on a major project currently underway in the Department of Children, Equality, Disability, Integration and Youth on the development of a new Funding Model for early learning and care and school-age Childcare.

These discussions are part of a broader national conversation with a range of key stakeholders on how we fund early learning and care and school-age childcare services and how additional funding can be used to improve quality for children, address issues of accessibility and affordability for parents and sustainability for service providers.

Already providers, practitioners and representative organisations have been having their say.

Your input into this project is very important at this stage, as we identify where we can direct our efforts in order to build a quality early learning and care and school-age childcare system that meets the needs of children and families.

We will be hosting a number of online focused discussions with parents from **23 November 2020**. The duration of these discussions will take 60 minutes and will be inclusive and informal.

**Rialtas na hÉireann**
